education

rochester institute of technology   2015-2020

Human-Centered Computing, B.S.   3.3 GPA

experience

teaching assistant • rit, ist dept.   2017-2020

Graded assignments and tutored students in information technology courses previously taken. Led group study sessions and one-on-one meetings to aid student success.

web developer • recordsone   2019

Updated integration tests for the latest release of the R1 platform for healthcare software solutions in an Agile dev environment with work overseen by the scrum master.

web designer • rit magic spell studios   2018

Redesigned templating themes for a custom website building framework to reflect modern design guidelines as part of an NIH-funded research project for documenting patient case studies.

extracurricular

division manager • rit esports   2019-2020

Oversaw the Overwatch competitive divisions for RIT eSports. Responsibilities included finding tournaments for both teams, resolving player conflicts, and representing the teams.

secretary • user experience club   2019-2020

Managed the social media platforms and online presence of the User Experience Club at RIT. Marketed for upcoming events and recruitment of new club members.
