RIT User Experience Club Secretary

PROJECTS

Supplemental Instruction | App Design
SPRING 2018 | CLASS

Redesigned an existing application for Supplemental Instruction at RIT, aimed to help define the functionality of the application and create a central platform for the community to use.

Companion | App Design
SPRING 2018 | INDIVIDUAL

Designed an application to find pets available for adoption and match them to potential owners. Revisited in Summer 2019 for revision and expansion of past ideas.

EXPERIENCE

RecordsOne | Web Application Developer
MAY 2019 - AUG 2019 | HENRIETTA, NY

Updated existing integration tests using the web languages for the RecordsOne platform. Worked with other developers to maintain R1 software's codebase and ensure new tests met coding standards.

RIT Magic Spell Studios | Web Framework Developer
MAY 2018 - JUL 2018 | ROCHESTER, NY

Updated and improved the Molly framework used for website development. Made interface responsive and mobile-first in templates and cleaned codebase for documentation and usability.

EDUCATION

Rochester Institute of Technology | B.S., Human-Centered Computing
AUG 2015 - MAY 2020 | ROCHESTER, NY | 3.3 GPA
