education

rochester institute of technology — 2015-2020

Human-Centered Computing, B.S. — 3.3 GPA
Concentrations in Instructional Design and
Human-Computer Interaction

experience

teaching assistant • rit, ist dept. — 2017-2020

Graded assignments and tutored students in
information technology courses previously taken. Led
group study sessions and one-on-one meetings to aid
student success.

web developer • recordsone — 2019

Updated integration tests for the latest release of the
R1 platform for healthcare software solutions in an
Agile dev environment with work overseen by the
scrum master.

web designer • rit magic spell studios — 2018

Redesigned templating themes for a custom website
building framework to reflect modern design
guidelines as part of an NIH-funded research project
for documenting patient case studies.

extracurricular

division manager • rit esports — 2019-2020

Oversaw the Overwatch competitive divisions for RIT
eSports. Responsibilities included finding
tournaments for both teams, resolving player
conflicts, and representing the teams.

secretary • user experience club — 2019-2020

Designed and email campaigns for the User
Experience Club at RIT. Marketed for upcoming events
and recruitment of new club members.
