education

rochester institute of technology — 2015-2020

Human-Centered Computing, B.S. — 3.3 GPA
Concentrations in Instructional Design and Human-Computer Interaction

experience

usability tester • usertesting — Present

Complete usability testing tasks for a variety of clients and their applications. Utilize different types of hardware to simulate testing environments and provide feedback on developing products.

web developer • recordsone — 2019

Rewrote integration tests for the RecordsOne R1 software in its latest release to implement new standards and data-driven programming. Utilized React to code tests and Jenkins for deployment.

web designer • rit magic spell studios — 2018

Redesigned templating themes for a custom website building framework to reflect modern design guidelines as part of an NIH-funded research project for documenting patient case studies.

extracurricular

secretary • user experience club — 2019-2020

Designed email and social media campaigns for the User Experience Club at RIT. Marketed for upcoming events and recruitment of new club members.

student ambassador • ist dept — 2016-2019

Represented my major for the Information Sciences and Technology (IST) department at RIT. Led student information sessions, tour guides, and events for the department and formed the Events Committee.
