projects

Teller • App Prototype
Fall 2019

Created an app prototype for finance tracking, utilizing contextual inquiries and affinity diagrams to aid design choices and refine working prototypes.

Supplemental Instruction • App Prototype
Spring 2018

Reimagined an existing application for a previous employer, Supplemental Instruction at RIT, aimed to create a central platform for the faculty and staff to utilize.

experience

Web Developer • RecordsOne
Summer 2019

Updated integration tests for the latest release of the R1 platform for healthcare software solutions in an Agile dev environment with work overseen by the scrum master.

Web Designer • RIT MAGIC Spell Studios
Summer 2018

Redesigned templating themes for a custom website building framework to reflect modern design guidelines and meet standards for clientele of the Molly framework.

extracurricular

Division Manager • RIT eSports
Fall 2019 - Spring 2020

Oversaw the Overwatch competitive divisions for RIT eSports. Responsibilities included finding tournaments for both teams, resolving player conflicts, and representing the teams.

Secretary • User Experience Club
Fall 2019 - Spring 2020

Managed the social media platforms and online presence of the User Experience Club at RIT. Marketed for upcoming events and recruitment of new club members.
